

MENTORING

South Florida Chapter of CPM

The South Florida Chapter of the CPM would like to mentor all those students who could use help in obtaining their CPM designation. We would like to help all those students who are having problems in doing their exams and assignments. We would also like to make sure the students keep on schedule in completing their assignments so that they can complete the program in a reasonable amount of time.

The Chapter has copies of the course books for CPM Levels 1-VII, and also exams and assignments for the levels. The CPM level 8 course book will be given to students during their week of graduation. The Chapter mentoring committee would like to mentor individually all those who sign up for the CPM Mentoring Program. A CPM mentor will meet with each student when both the mentor's and student schedules are free.

All those CPM students who would like mentoring please e-mail the mentoring chair Jerry McCarthy at Jerry.McCarthy@dot.state.fl.us or telephone (954) 777-4555
